

Join the ultrafast revolution

Moving into a new home is a time to celebrate, so we're offering a **FREE ROUTER** when new customers sign up with purebroadband.

We've got a wide variety of packages available and each one has been created to meet the varied needs of our customers. You can either take advantage of our FREE router or purchase a router from our range of high performance routers. Why do we offer customers a choice of router? We want to ensure that you have as much flexibility and safety as possible when it comes to surfing the net at ultrafast speeds.

Whether you're looking to stream the latest hit movies or your favourite TV shows, download music, take part in epic online multi-player gaming sessions or uploading and streaming your own content, you'll be able to find a package specifically built for your needs.

We want to make sure you love your internet connection just as much as you love your new home. That's where a purebroadband connection comes in, allowing you to enjoy some of the fastest speeds available in the country with a stable network. During ordering your broadband, we'd be delighted to talk you through any questions you may have regarding your service.

We try and keep things simple; purebroadband provides ultrafast speeds with none of the gimmicks. That doesn't mean we don't jump at the chance to get techy, though! If you've got specific requirements for your internet, we can help build a package just for you. **Order online or call one of our team on 01482 778838.**

Fibre internet is perfect for

Streaming online
TV series and movies

Playing video
games online

Uploading and backing-up
your photos & videos

Video calling anyone
in the world

Because our network is built on fibre optic cables, you won't require a telephone line to enjoy some of the fastest speeds available in the country.

Find out more about how we can provide you with ultrafast broadband, call us on: 01482 778838.

Order online or call us today on **01482 778838** to activate your service

Terms and conditions apply: All offers can be withdrawn at any time and without notice. In order for services to be activated, we must be provided with the serial number of the ONT and the status of the lights. Service activation can take up to 5 working days. In some cases, there may be damages to fibre / hardware which is beyond our control, this may result in an Engineer having to visit the property in order to activate the connection. Billing will start once the ONT in the property has been activated. Failure to pay will result in the service being suspended. We reserve the right to charge a £3 reconnection fee. Payment must be made by Direct Debit. You will pay for your service on the day of activation and on the same day each month from there on. Early contract termination will incur penalty charges. Failure to fulfil the full payment terms of the 12 month contract may result in court order proceedings. Please ensure that all of your details are kept up to date as we will from time to time send updates regarding essential maintenance. *Amazon Prime, free for one year only. Further terms may apply.
