

Electricity Connection Offer Expenses Regulations

When you apply to us for a point of connection, we may charge you for the time that we spend processing your application in accordance with the Electricity Connection Offer Expenses Regulations 2018. For certain types of application, fees will be applicable even if you do not proceed to accepting the offer. The table below shows a clear layout of our costs and at what stage this payment becomes applicable dependant on your connection type.

| | Budget | Feasibility | | Assessment and Design of the Non Contestable Work | | | | Assessment and Design Fees of the Contestable Work | | | | CIC Design Approval of the Contestable Work |
|--------------------------------------------------------------------------------------------------------|--------|-------------|----------------|---------------------------------------------------|----------------|-------------------|----------------|----------------------------------------------------|----------------|-----------------------|-----------------------|---------------------------------------------|
| Application Type | | Min Charge | Add Charge p/h | Min Charge | Add Charge p/h | COE (applicaton) | A&D Acceptance | Min Charge | Add Charge p/h | COE (application fee) | A&D (acceptanc e fee) | |
